Madden NFL 25 released in March. The best-selling Madden franchise is back for its 25th year – but this year’s edition is really different. “This year’s gameplay is the most advanced and realistic we have ever seen,” said Matt Tolentino, senior producer, EA Sports. The game launches with three seasons of new content. New stadiums, player cards and customized player rosters are included in this year’s edition. Players will also be able to choose from seven new player types, new playbooks, a new franchise, and online play. For the first time, players can also create their own team using all of these elements. This year’s game also introduces a number of new gameplay features, including Quickplay. The Quickplay feature allows players to tap the D-Pad to quickly enter a game, or by signing in with their Social Club account. This allows players to create a custom team, place all of their favorite players on the team, and even create future players. Quickplay will also be available for all FIFA and Madden mobile players. Elsewhere in Madden NFL 25, team Defenses have been overhauled, including a new 'Bullet Time' feature. Players can now instantly freeze opponents to slow down their movement and manage the timing of their shots. Players can also execute a new 'Breaking Tackle' move, which instantly slows and stops an opponent. FIFA 22 introduces “HyperMotion Technology,” which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.Madden NFL 25 released in March.
