The club's name is a combination of its Victorian State League affiliate Oakleigh Cannons and the Knights name of the Australian soccer club of the same name. Oakleigh Knights are associated with the Australian Football League club Melbourne Knights. History The FC Oakleigh Knights were founded in 1978. Their first recorded official appearance was in 1979 in the Victorian State League. Their first ever game was a 4–2 loss against South Melbourne, with Steve Beardsley scoring a hat-trick. Their first ever win came on 20 June 1979 when they beat South Melbourne 3–0. In 1981, former Australian international Paul Wade was signed by the Knights, helping them win the National Soccer League. The club's first ever final came in 1992 against South Melbourne in the Victorian State League. Due to the collapse of the National Soccer League, the Knights entered the Victorian League in 1992. In 1994, they won the Victorian State League title. In 1996, the Victorian State League collapsed and the Victorian Premier League was established, with the Knights remaining in the Victorian Division One, now known as the Northern Premier League. In 1997, the club won the Northern Division 1 championship and were promoted to the NPL Second Division. Despite their title winning season in the 1997 NPL, the following year the Knights gained promotion to the NPL First Division. In 2001, the club suffered a humiliating upset losing 6–0 to in the final of the FFA Cup, the national club competition. In the following season, the Knights replaced the Football Federation Victoria (FFV) for sponsorship purposes and were rebranded the Oakleigh Cannons. FC Oakleigh Knights withdrew from the NPL in 2006 and re-registered with the Victorian State League, returning to its original colours

What is the etiquette of usage? I would prefer not to sound like an old fart and get called one. While writing a short story recently, I chose to use a gender-neutral pronoun to refer to a character which existed in at least four male and four female incarnations. The rules I was writing by were not flexible enough to respect, It's ambiguous The pronoun is only said once for all incarnations. I am aware this is a much harder problem in English than it is in other languages. A: Would you introduce your boyfriend or girlfriend as "he" for one of a group of people because of a passing resemblance to another of the group? That will sound as if the pronoun is arbitrary. It is quite real for things like this. It doesn't mean any particular story will be met with derision, but it certainly means the narrator is in for an abundance of "boring" explanations from the readers. "He" is not arbitrary. It is significant and unique. It has meaning and isn't arbitrary. Can't be thought about like that. It implies a range of

experiences and a degree of uniqueness and humanity that go beyond grammar. It has an emotional value and a richness of meaning. A: "They" is a third person singular pronoun that is acceptable to use in place of "he" and "she", with the exception of when a person is being treated as genderless or when the gender is otherwise ambiguous. You cannot use "they" to refer to a group of people. The grammatical form "he" is acceptable to use to refer to a genderless character in a plural setting, but only if you are referring specifically to a single member of the group. The grammatical form "she" is acceptable to use to refer to a genderless character in a singular setting, but only if the context is clear and gender is otherwise unamb 0cc13bf012
