AN ITEM POINTS SYSTEM! USE IT! FIND IT!

IMPORTANT NOTE: This game is for 3DS only. It requires the 3DS and a Nintendo DSi or New 3DS. If you don't have one of these systems, you can still play the game but you will not be able to see the amazing 3D that the 3DS is capable of. I will be updating the game from time to time with new features, characters, music, and bug fixes. I want to make this the best pin-up game out there. **HOW TO PLAY HOW TO FIND ITEMS USE IT! FIND IT!**

NEW ITEM POINTS BREAKDOWN! Each item can be used to reveal items hidden in the game. Items

are sort of like collectible items in finding items. A certain number of items can be turned in to gain a single point. To find a character, simply talk to them, on the menu screen. TRACK YOUR PROGRESS WE WANT TO KEEP TRACK OF YOUR PROGRESS! The Progress Tracker is designed to keep you on track. You can visit the Progress Tracker at any time from the Options Menu. When you visit the Progress Tracker, you can reset your progress, or even earn extra items to make the overall point total go up. The Progress Tracker is located in a special item. When the Progress Tracker opens, you can see where you are in the game, how many items you've found, as well as how many items you have left to find. Here's the current Progress Tracker: NOTE: Only the percent in the top row counts. You can use the information in the Progress Tracker to help you plan your scavenger hunt. Just make sure to keep track of the Progress Tracker if you decide to reset it.

There are two methods to earn points in the game: 1. Quests 2. By interacting with characters. For example: 1. Find the person who is the first on the left (on the map). 2. Find the person who is the first on the right (on the map). 3. Find the person who is in the center. 4. Find the person who is the second on the right (on the map). 5.

Find the person who is in the center. 6. There are some people that count as both an individual and the person

What's new:

Magicka: Final Frontier is an open world fantasy role-playing game published by BioWare and developed by Petroglyph. It was released in 2007 for Microsoft Windows, and 2010 for the PlayStation 3 and Xbox 360. The game shares its roots in the fantasy world of The Elder Scrolls series. Players take on the role of a member of the Order,

a military organization that protects the empire's borders and is generally dedicated to peace. They investigate mystic threats that the empire's Emperors have raised to threaten the Empire. Petroglyph developed a new engine, editor and development tools for Final Frontier. Final Frontier was BioWare's first RPG to use the game editor used by the Baldur's Gate series. The development team chose to use the real-time rendering engine Unreal Engine 3. The game is set in the lands of Isana, a republic/empire with fair trade, equal education and freedom of religion, and where a young person can make his or her own name. Gameplay Gameplay in Magicka spans five novels called Charms which contain set missions that the player completes to gain the required experience to become a Prodigy, the highest level of wizard available. Many villains and creatures sought as such by the guilds who raise up wizards fight on behalf of the Empire in the Charms (some openly and others secretly) and must be dealt with. Players can also learn spells in field experience which will boost the level of wizard in times of crisis or where special circumstances arise. As the game progresses the player becomes increasingly powerful and can move up to the title of Archmage. Charms and Field Experience The user can gain experience to further craft their magical abilities. This can be used to purchase new items or unlock new abilities within the game's spells based on the player's level. In order to get a bonus experience for certain tasks, the player will need to activate Servitor A.B.1.7.1.B.1. To enter self destruct, this is where the potion is found. Play Style Melee combat is played in real-time with a range of melee and long range spells. These range from spells that grant the user temporary Armor to summon Imps or transform its position in the world, to turning the skies into hail on the ground below. Defensive spells include a Shield, the auto-cast Charge and Mystic Wall. Spells can be cast at any time and most are learned by the player through
