What's new in Elden Ring:

Two new game genres. "Devil May Cry" is an action game with clear and simple controls, where your attacks rely on moving special attack buttons on the controller. As an enhanced version of the standard action game, we added to the basic concepts of action games such as "Devil May Cry," in which an opponent can defeat you by timing his attacks perfectly. With rich scenarios, we take various enemies and elements from "Devil May Cry" and craft a hyper-graphic drama, keeping intact the strengths of the original.

"Shin Megami Tensei" is a fantasy RPG that, besides action and role playing, merges aspects of computer games and VNs (Visual Novels) into a brand new genre. In the past, such games were both story oriented and action oriented, but we decided to merge the two elements. Full of drama, the story is constructed to be easy to read, and features abundant information about the characters, the game plays out through dialogue and screenshots.

Twilight fans rejoice; the times when you could express your love for your favorite character through drawings are back. In this scenario where the two stories unfold the connections between the characters from the original role playing game and "Twilight" are left to the player to decide, and we made the story in the strictest sense one in which each detail is planned with a view towards a high degree of freedom when you become immersed in it.

We present a scenario where the real and virtual worlds overlap. In the battle between the shadow demons and the vampires, vampire Larva and the central character were born from the shadows in the real world into the eternal world. Now, in order to destroy the power of shadow demons which has infected the homeland of the vampire kingdom, the hero from the other world with his comrades is heading toward the central area, they are joined by human enemies, and this all reflects in the game. Through play that takes place in real time

and features two versions of the characters, we will let you picture for yourself the scenario in which even the destiny of the two worlds are shrouded in darkness and uncertainty, even a single moment can change the course of history.

These are a few words from the developers that intend to express the essence of the themes of the game. We hope you enjoy the game!

The first North Carolina school district to ask students and staff to stay home due to the coronavirus pandemic is near the end of its first week in place. Charlotte-Mecklenburg Schools says students and school leaders haven't been tested for the coronavirus, but it's now closed schools for the rest of the week. The district is in North Carolina's first coronavirus cluster. The first confirmed case of the COVID-19 virus came last week from an on-site nurse at Blake Hospital who had returned from a trip to Italy. North Carolina is home to more coronavirus cases per capita than any other state in the nation. So far, the district has canceled or postponed more than 70 school events including after-school sports events. And an emergency fund will allow the district to absorb the costs of instruction in alternative formats through the end of the year.It's good to be Pekka Rinne! Thanks to a brilliant performance from the netminder and some slickly-played overtime goal-scoring from a

talented young forward, the Nashville Predators earned a point against the Winnipeg Jets on Saturday. It was a marked improvement over Thursday night, where Rinne was pulled in the first period and allowed five goals on 15 shots in a 5-3 loss against the Edmonton Oilers. Rinne, who played well in a 5-3 loss to the Ducks last Wednesday, stopped 34 of the 35 shots he faced on Saturday, and it was a stat that pleased Predators coach Peter Laviolette. "He had a good game," Laviolette said. "He had a big game. It was a big game for us. We got a point. That's something that we needed at this time of year. That gets things going. It was good to see him play well in this one and be aggressive and make some saves when he had to. It was good to see." "I like to have my chances," Rinne said. "I didn't want to take any chances on that one because I knew that they were coming real fast. It's a pretty tough place to score around here. It's always nice to have your chances out there." The Predators have a long road

trip ahead of them and Laviolette hopes Rinne can enjoy
