A plucky boy detective with visions of candy Funny cartoon graphics and a silly story line Detective-style point & click gameplay A non-linear story arc, but with several endings Thrilling 3D graphics, exciting sound effects and music A vibrant and unique environment, with dozens of locations and characters to visit and solve puzzles in An original storyline based on the character of tony and his investigation into the candy-stealing maniac Full support for the TALKBACK feature in Windows Vista, making it easier than ever to find your way About The Game Tony Tough: Tony Tough is a 11-year-old gumshoe on an adventure for his life! Tony's been hired to investigate the sudden disappearance of his beloved dog, Rosy, and determine who stole the dog's crate full of chocolate bar wrappers on Halloween night. So far, Tony has pieced together a suspect list that includes a mysterious old woman with a parakeet, a hungover party girl, a singing ex-con, a gay valet, a crooked police chief, a hard-hearted undertaker, a zombie-like candy bar fanatic and an ugly, bloated, angry mummy. However, his search for the truth takes him deep into the macabre grounds of the haunted Bugtussle Zoo, where a loopy ice witch, a crazy clown, an angry samurai and a purple tapir named Pentagrue are all looking for an easy buck. This is a comic detective adventure that provides a fun, compelling storyline for Tony to discover - how he solves the mystery is up to the player! Key Features: + 15 Demented, Grisly 3D Environments - Tony's Night of Roasted Moths begins in a hazy zombie-land landscape, filled with mystery, gloom, mayhem and more! + 13 Diverse Characters and Locations - Explore a Halloween haunted carnival, a festival village, a haunted carnival, a funfair, a zoo, a botanical garden, and many other delightful locations! + Relatable Characters - Tony Tough is a young, likable gumshoe detective with a few issues of his own - like insomnia, restless leg syndrome, and a stutter - and an even more pressing concern: Rosy, his lovable dog and first loyal friend. + Non-Linear Storyline - Your investigation will require you to visit several different locations, characters and events, but you'll also experience several
