It was this tendency, while ostensibly maintaining Classical (or even Late Latin) points of reference in diction, style, etc., to produce a kind of half-conscious neologism that some scholars have called "Latin Lite" (see Turner). The fashionable "Plain English" of

the Puritans (and also perhaps the standard English used in the translators of the Bible into English) is a chief example of such "Latin Lite." When we hear sentences like "As it were, one might well perceive it to be the verdict of a jury" in books of the first part of the seventeenth century, we should not suppose that the writers meant to make use of the English language as it was spoken in their own time but as they would have spoken it had they been sitting on a jury of the English court in the era of Edward III. According to such usage, the expression "a jury is a body of people who deliberate together in court" would have been "a jury is a body of people who deliberate together in a box." The use of classical vocabulary in the translation of the Bible was a profitable and appropriate practice in the period of its use. It has, however, now become a sign of lost authenticity and an index of intellectual poverty. It may, in fact, be the mark of a

decadent age or a degenerate people that they can no longer speak the language of their forebears and translate their literature into a dead tongue as if it were the language of a third-rate people or a fourth-rate nation. It is not too much to assert that the Bible has been the hardest work ever undertaken by man; in its interpretation it has had a unique origin, character and contribution to make. Yet
