if you find yourself in a situation that you do not know how to begin, you may turn to the kamasutra. the book will guide you in a way that will help you to achieve the result. still, the book is a collection of tales, myths and legends, in which the author vatsyayana describes a series of positions. but the book also teaches how to achieve them. it shows the order and sequence of events, how to choose the most suitable sexual positions, what to avoid and what to look for. the most important thing is that all positions are accompanied by a description, as well as with a vivid description of the emotions, which may be experienced by the participants of the act, and for which they are suitable. for example, some positions, in which you can be on a level higher than on the skin-to-skin. in other positions, the man and the woman have to be in contact with each other, but their bodies are not together, and the orgasm is achieved by a pressure applied by one of them from inside. in the kamasutra, the principles of tantra are explained in detail. in fact, the author recommends the practice of these principles. the main focus is the intensity and sensual pleasure, which can be reached only by such intimate act of love as sex. in the sexual act, we can realize the unity of the male and female principles, and the most beneficial result for our health, by doing it rightly. to achieve this, we need to prepare our bodies and minds, and take care of them as best as possible, and this is possible only by an extensive training in yoga, meditation, and spiritualism. only then, we can achieve the most profound experience of the spiritual union, which is the main goal of the tantric practice. 5ec8ef588b
