## What's New in the?

A PDF file is an easy-to-open document format; however, the majority of PDF files are image-only, which makes it difficult to search for something in a PDF file. When you need to search for text or images in a PDF file, however, you'll want an app that can do just that. Apowersoft PDF to Text Converter is just such a tool, and it can quickly and easily convert a PDF file into any format you need, in order to make your searching much easier. A better alternative to other PDF to text converters Some PDF to text converters can't process certain types of images or search for images within a document, which is a serious shortcoming. For example, some can only extract text from images, and others only search for text within a document. Apowersoft PDF to Text Converter is quite a bit different, as it can convert a PDF file to any format you need, including text, HTML, JPG, PNG, Microsoft Word and Excel. That's really quite powerful, and it's certainly something that most other PDF to text converters can't do. The program also boasts a very simple user interface, so you'll find the operation of this tool to be intuitive and easy. You'll drag and drop PDF files into the window and click the Convert button. Then, you'll be able to choose the type of output format you'd like, as well as the image type you want to convert to text. The app can also make PowerPoint, Word and Excel files into PDF files, as well as image files into text. And if you need to add a password to a PDF file, you can use the program's Lock PDF feature. When you try Apowersoft PDF to Text Converter, you'll have a better understanding of why it may be the best PDF to text converter that you could possibly find. At just \$7.95, this isn't a bad deal, especially when you're dealing with PDF files that you need to convert to text in order to be able to search for information in them.
